Survey of Campaign Finances in the 2014 Elections for the Rhode Island General Assembly

The attached document summarizes campaign spending by candidates for the Rhode Island General Assembly during the 2014 election year. The figures in the document are drawn from campaign finance records ([Campaign Contributions and Expenditures Report](#), CCER-1) on file at the State Board of Elections for the calendar year 2014. The document was compiled by Nathan McGuire (Boston College, Class of 2016), Kate Mancosh (Furman University, Class of 2017), and Matthew Romano (Boston College, Class of 2018).

Candidates for office are ranked by the amount of money raised for a campaign (“**Raised**”), and the amount of money spent (“**Spent**”) on a campaign.

In addition to names and numerical ranking, the report includes data for two other points. The column titled “**Other Resources**” reflects funds available to a candidate for his/her campaign that were not raised during 2014. Figures in this column include money on hand prior to January 1, 2014, personal loans to a campaign, returns of deposit money for public utilities, and other sources of campaign revenue.

The last column for Senators and Representatives is titled “**Opponents.**” In this column, opposition is characterized in three categories, as follows:

N = No Opponent

O = An opponent who received less than one-third, or 33.3%, of the vote in the election.

C = A “credible” opponent who received more than one-third, or 33.3%, of the vote in the election.

The first letter in this column describes the legislator’s opposition in the Primary Election on September 9, 2014. The second letter describes the legislator’s opposition in the General Election on November 4, 2014.

For defeated candidates for the General Assembly, a column for the district number in which they ran is included. Incumbents who were defeated are noted by an asterisk (*) next to their name. The last column for defeated candidates is titled “**Classification.**” In this column, a defeated candidate is characterized in one of two ways. An “opponent,” signified by an “O,” is a candidate who received less than one-third, or 33.3%, of the vote in the election in question. A “credible opponent,” signified by a “C,” is a candidate who received more than one-third, or 33.3%, of the vote in the election in question.

The average figures in each category are included in the rankings, which are as follows:

- Representatives Ranked by Money Raised
- Representatives Ranked by Money Spent
- Defeated House Candidates Ranked by Money Raised
- Defeated House Candidates Ranked by Money Spent
- Senators Ranked by Money Raised
- Senators Ranked by Money Spent
- Defeated Senate Candidates Ranked by Money Raised
- Defeated Senate Candidates Ranked by Money Spent

The sources for all data in this document are on file at the State Board of Elections. In some instances those documents may be inaccurate, difficult to read, contradictory, or non-existent. This may affect the accuracy of some of the data in this survey.
